Admissions Policy

Girls Global Academy uses the MySchoolDC common application lottery process to have families apply to Girls Global Academy. The process allows all girls in the District of Columbia who are interested in attending GGA the opportunity to do so. GGA will neither discriminate nor conduct aptitude or achievement tests for enrollment.

Lottery Preferences

Girls Global Academy offers “Sibling Offered” preference for a student whose sibling is matched in the lottery or offered a seat from the waitlist. This preference allows siblings to attend Girls Global Academy at the same time. If the sibling is offered a space at the school and does not enroll at Girls Global Academy, or enrolls later at another school, the “Sibling Offered” preference may be removed for all siblings that applied to Girls Global Academy.

The second lottery preference Girls Global Academy offers is “Children of Staff”. This preference is for children of staff members who apply to Girls Global Academy. As there is no place on the application to indicate eligibility, Enrollment Office staff will notify My School DC directly if there are applicants that are eligible for Children of Staff preference.

Section I: Sisterhood Pillar

Part I: Advisory and Community Meetings

As the cornerstone value on which Girls Global Academy is founded, we define sisterhood as a welcoming and supportive community; honoring and respecting the connections between one another, bringing greater focus to concerns girls grapple with, and collaboratively exploring the possibilities of what can be. True global sisterhood is about discussing the universal struggles of womanhood and learning that takedown

culture (girl vs. girl) doesn't have to be the default. Girls and their voices matter at GGA and we strive to elevate all students' potential through a shared language that celebrates identity, encourages truth-speaking, and enables a student to write their own narrative of the future.

What does Advisory look like at Girls Global?

Advisory is an opportunity for students to explore academic, social, and college/career topics in safe and comfortable spaces with a smaller cohort of students. Facilitated by an instructional staff member, the focus is on positive student-to-student and student-to-adult relationships that develop through discussions, activities, and mini-projects.

Subjects for advisory include (but not limited to) the following:

- Sisterhood Bonding
- Reviewing Expectations Matrix
- Mental Wellness
- Global Citizenship
- Growth Mindset
- Digital Citizenship
- Future-Ready Skills
- Graduation Requirements
- Academic Supports
- Book Study

What does an advisor do at Girls Global?

Because your student will see their advisor at the beginning of each school day, the advisor is the first point of contact with the school once the year begins. You can contact your student's advisor to check on student progress. Your student's advisor will facilitate the subjects listed above in advisory cohorts, support the advisory cohort with leading

community meetings, and support your student with facilitating student-led conferences at Girls Global Academy.

Your student's advisor is your first point of contact for your student since the advisor is the first person your student sees Monday-Friday.

How is advisory graded?

Advisors will score students based on the rubric below. Students should arrive on time to advisory, participate in all activities, and be open to ways they can improve themselves using our four pillars. Students will also self-assess at both the Fall and Spring Student-Led conferences and share reflections with their families.

What do Community Meetings look like at Girls Global?:

At Girls Global Academy, we believe that voice and choice happens in a variety of settings and will be a hallmark of our Wednesday Community Meetings. Community

Meetings at Girls Global Academy are student-led and provide an opportunity for all stakeholders (students, staff, parents, and community members) to come together to do the following:

- Greetings and fellowship
- Positive Affirmations
- Mindful Movement
- Team-building Activities
- Community Learning
- Important Announcements

****Student groups will take turns in their advisory cohorts leading the meetings with the support of their advisor as a facilitator and guide.**

Part II: School Culture Overview

In order for Girls Global to achieve both our vision and mission for our students to become active, global changemakers, our team understands how critical it is to establish a rigorous, safe, and supportive school culture. This is accomplished through our advisory cohorts, weekly whole school community meetings, curriculum and courses, and Wednesday LEADership Academy.

Sisterhood icon: Our girls understand that while they may not be related by blood, the bond that they create at GGA will last a lifetime. Regardless of differences, GGA students understand that every girl has unique potential and abilities that are celebrated by everyone. In times of distress and challenge, GGA students can count on each other, the staff, and the community to uplift them.

Our girls know that a growth mindset approach is key to academic success and that deficit mindsets are detrimental. At GGA learning from ‘failure’ and mistakes are encouraged. Continued improvement through multiple iterations is important emphasizing both the learning journey and its outcomes.

”Because YOU matter” is about more than ourselves. We live in a global world and ripple effects have both small and large impacts. Our girls will develop a “roll up our sleeves” approach to making change using compassion and understanding of both themselves and others.

From day one, girls are exposed to the vision and values of school, emphasizing the purpose - "because we matter". While there are clear academic and behavioral expectations set, it is clear that students see assignments and classroom spaces as opportunities to learn and take risks. Teachers establish relationships with students, not for academic reasons alone, but to push girls to achieve their personal bests.

Part III: Positive Behavior Systems & Restorative Practices

As part of our mission to empower students to make healthy and responsible choices, we are adopting the PBIS system to encourage positive behavior and restorative practices for making amends when harm has been done.

What is PBIS?

PBIS stands for Positive Behavior Intervention Systems and is an “implementation framework for increasing effectiveness of efforts to promote respectful, responsible, and safe teaching and learning environments.” PBIS is a research-based practice that gives positive acknowledgements for behavior, and includes a social emotional learning component and provides consistent expectations across the school.

Our expectations matrix is based on our four pillars of Sisterhood, Scholarship, Service, and Safety. Our expectations matrix (virtual; hybrid; on-campus) will be taught and reviewed throughout the school year.

What are Restorative Practices?

“Restorative Practices is a set of philosophies and approaches to building community and responding to harm with roots in indigenous traditions.” Students who commit a behavior infraction apologize to their classmates (and often teachers, families or other community members), explain their actions, and listen to feedback and observations about how their behavior affected others. Restorative practices include restorative circles which support repairing harm. The circles could be whole class or small circles with just the parties involved.

We believe that these circles may have a preventative use as well—students can see how their actions affect others and will be less likely to repeat the same poor choices and/or will be less likely to commit the behavior infraction themselves. Restorative practices

also build the skill of apologizing, making amends, listening, accountability and empathy, positive behaviors that may enable students to think twice before they commit

a negative behavior. The focus is on building relationships and community, and on creating positive change. Restorative practices allow students to be reflective (engendering self-awareness), make responsible choices, and think about how individual behavior affects others and the community as a whole (social awareness). Students feel that they are part of a supportive community (a sisterhood) that they would not want to “let down.” Restorative practices also serve as a healing process and to re-integrate students into the community.

Part IV: Athletics Program

GGA Academic Eligibility

Students must have passed 70% of available courses from the previous term AND must be enrolled in 100% of a full schedule during their current term to be academically eligible through the PCSAA. GGA offers academic pathways for our students to earn credits toward graduation. The grade point average equivalency must equal at least 2.0 at the end of each quarter for the academic year to be considered eligible for athletics.

Codes of Conduct

During Competition, it is the responsibility of all competing team’s athletic directors and coaches to maintain a safe and organized sideline. Unauthorized individuals, including students (non-team members), parents, and children shall not be on sideline or playing area before, during, or after a competition, Student team managers are considered a part of the team, but only a maximum of two (2) student managers may be present on the sideline before, during, and after the contest. Furthermore, student team managers must wear team uniform polo shirts to identify them as a team manager.

Student Handbook Violations

Disregard or repeated violation of Girls Global Academy Student Handbook will be considered a violation of the Athletic Code and will result in progressive disciplinary action up to and including complete removal from GGA Athletics. Any and all violations of MTSS during the school day will result in a subsequent disciplinary action.

For more information: [Official GGA Athletics Handbook](#)

Part V: The Trailblazer Way: Code of Conduct Policy

The International Baccalaureate Organization's approaches to teaching and learning include both proactive and responsive approaches to student development and discipline. As Girls Global Academy is an International Baccalaureate Career-related Programme school and we will employ Positive Behavior Systems and Restorative Practices to encourage prosocial behavior, community building, and alignment with IB principles. In general, our proactive positive approach incorporates a shared vision of expectations. We view undesirable behavior as a teachable moment and a learning opportunity. Our discipline policy is aligned to the Student Fair Access Amendment to School Act of 2018.

Families (parents, guardians and legal custodians) are critical partners in both creating and maintaining a safe and supportive school environment. Families have the right to and are responsible for:

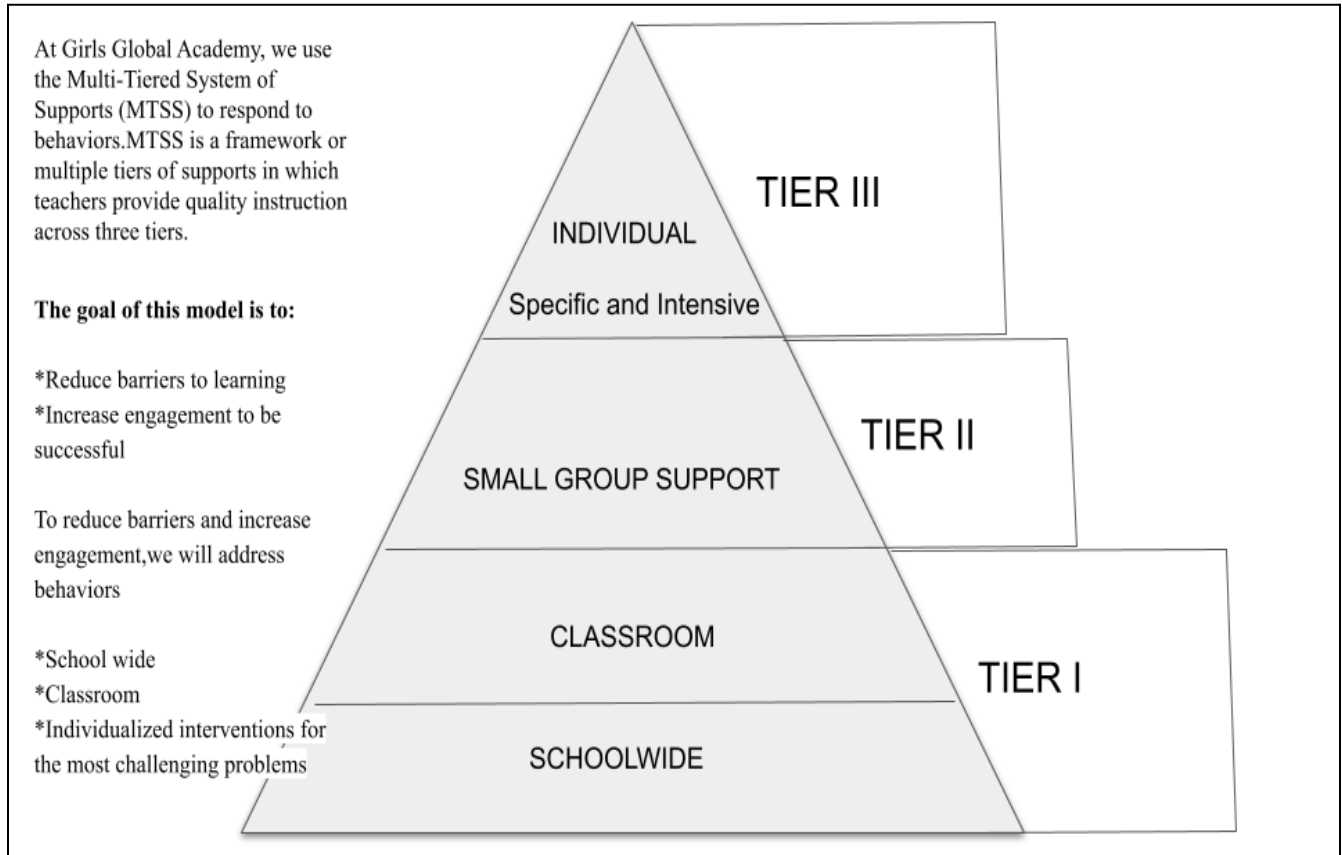

- Collaborating with Girls Global to develop a shared vision of a safe and supportive school environment
- Being informed of Girls Global school-wide expectations
- Communicating in a timely and respectful manner with Girls Global staff if concerns arise
- Informing Girls Global staff about undesired behaviors that may present themselves at home and at school
- Encouraging their student to adhere to Girls Global school-wide expectations
- Supporting their student in taking responsibility for behaviors that do not adhere to Girls Global school-wide expectations
- Encouraging their student to speak up if any concerns arise

At Girls Global Academy our goal is to use a proactive, preventative and responsive restorative approach to prosocial behavior. At GGA, it is the expectation that students maintain high standards of behavior. It is the stakeholders' expectation that students will learn and model self-discipline and have a ready to learn conduct. If/when a student is not responsive to the interventions given and it increases in frequency, intensity and duration, Our goal is to reduce behaviors, increase engagement and provide skill-building and develop SEL Competencies. All GGA staff will do this by:

- ☐ Providing structure in our settings for success schoolwide.
- ☐ Teaching trailblazers the expectations in those settings.
- ☐ Monitoring and reteaching student behavior in these settings.

The Girls Global Academy Expectations for Students

At all times students are expected to:

- Be respectful to staff and other students;
- Treat school and personal property with respect and care;
- Follow the GGA Way by wearing school uniform;
- Respond to and follow staff instructions the first time;
- Use appropriate language in all GGA spaces;
- Model Trailblazer behaviors using the Trailblazer Way;
- Avoid behaviors that bring physical, mental, and emotional harm to others

Equitable Implementation of Behavior Policies

GGA will regularly analyze data to ensure that behavior policies and practices are implemented equitably, in particular for at-risk students and students in specialized groups such as ELs and SWD. If necessary, we will adjust our procedures and policies and hold professional development for staff.

Girls Global Academy will utilize suspension and expulsion as a disciplinary measure for repeated and/or serious incidents that fail to meet stated Girls Global expectations for a safe and supportive environment or fall under the definitions and descriptions below.

Girls Global Academy has adopted the terms outlined in The District of Columbia Student Discipline Guide: A Guide for Students, Families, and School Staff published by the Office of the Student Advocate, the DC Office of the Ombudsman, and Every Student Every Day.

Suspension is defined as the denial of the right of a student to attend Girls Global Academy, including all classes and school activities, for a defined period of time **not to exceed ten school days.**

Girls Global Academy will ensure that students who serve suspension are accommodated in the following ways:

- The student continues to earn credit toward promotion and graduation requirements.
- The student continues to receive assignments for the duration of the suspension.
- The student communicates with school personnel about school work (as needed for the student).
- The student makes up missed school work during the suspension (including assessments).

Girls Global Academy will ensure that students are welcomed back to the school community. While family accompaniment is not required for re-admission, a conversation is highly encouraged to ensure the family that their student is welcomed back through a restorative process. This meeting would be facilitated by the Assistant Principal of Culture and Counseling or the Administrative Designee.

Students with Disabilities

GGA's policy ensures that students with disabilities are disciplined in a consistent manner and adhere to the Individuals with Disabilities Education Improvement Act (IDEIA). Parents of all special education students will be informed of their rights, including their rights regarding discipline procedures.

In cases where a student's disability impacts their behavior, we will ensure that appropriate and required interventions have been implemented prior to disciplinary action. This policy is applicable to any student who has entered the Child Find or other intervention process specifically related to behavior. For students with disabilities, Girls Global will conduct a Manifestation Determination Review (MDR) to review a student's evaluation, student observations, parent input, and the contents of an IEP or 504.

For students who have an IEP or 504 plan (or currently in the eligibility process), Girls Global Academy must determine if the behavior presented during the incident is a manifestation of a student's disability. If the behavior is determined as a manifestation, then the Special Education Coordinator will schedule a meeting with relevant staff to develop or revise a behavior intervention plan for the student.

Informing parents of rights

GGA families will be provided written notice of their rights and procedural safeguards any time they are notified of decisions regarding the identification, evaluation or educational placement of their student with a disability under IDEA or Section 504. A Prior Written Notice will also be provided when there is intent to initiate, change, or refuse the identification, placement, or change in services of a student with an IEP. All notices will be written in a language that is understandable to the general public and in the native language of the parent or other modes of communication that are not a

written language. In addition to providing copies of the procedural safeguards and the GGA Child Find policies and procedures, all documents will be available in the main office and posted to the GGA website.

Discipline Guidelines

The decision to institute discipline or a suspension at Girls Global Academy can be made by a School Administrator (Executive Director, Assistant Principal of Culture and Counseling or other Administrator Designee) without the recommendation of the student's teacher or other school employee. The administrator issuing the suspension will determine the number of days a student will serve a suspension based on the severity of the behavior and any previous behaviors of the same category. The suspension is effective immediately unless otherwise stated by the School Administrator or the Administrator Designee.

Disciplinary decisions to recommend a student for expulsion will be made by the School Administration (Executive Director, Assistant Principal of Culture and Counseling or other Administrator Designee) without the recommendation of the student's teacher or other school employee. The administrator will consider the severity of the behavior, any violation of discipline contracts and the discipline tier chart when recommending a student for expulsion. All students recommended for an expulsion will have a Discipline Hearing Conference. The Discipline Review Committee will make final decisions concerning expulsions.

In order to provide equitable and transparent attention to suspensions, all families have the right to initiate a challenge for discipline that is recorded in the student's official school records and the family or student follows the process for challenging information that is a part of the student's official school record. If the appeal is successful then the suspension or expulsion is expunged from the student's school records.

Suspensions

Short-term suspension (5 days or less) decisions are made by the Assistant Principal of Culture and Counseling or other Administrative Designee without the recommendation of the student's teacher or other school employee. The Assistant Principal of Culture and Counseling or the Administrative Designee will determine the number of days a student will serve a suspension based on the severity of the behavior and any previous behaviors of the same category. The suspension is effective immediately unless otherwise stated by the Assistant Principal of Culture and Counseling or the Administrative Designee.

Disciplinary action that removes the student from their usual education setting. A suspension cannot exceed 10 consecutive days. Short term (5 days or less) and long

term (6 or more days) suspension decisions are appropriate when tiered interventions are unsuccessful, previous behavior of the same category, or when the severity of the behavior warrants temporary removal from Girls Global Academy campus. All students being considered for a suspension or expulsion have the right to be informed of the infraction and the opportunity to be heard before a final decision for a suspension or expulsion is made.

Suspension Cap at 20 Days

Girls Global Academy recognizes that a student cannot be suspended from school for more than 20 cumulative school days in a school year unless the Executive Director provides written justification to the student and their family or if the student's behavior resulted in an emergency removal.

Section II: Scholarship

Part I: Academic Overview

When the GGA team selected standards, the most important factor was that the standards align with our philosophy and approach to teaching and learning, and exemplify both our *mission and vision*. The standards must also connect with the four pillars of *sisterhood, scholarship, service, and safety*, and emphasize the *global* community. Most importantly, we want to make all educational materials *accessible* to all learners, take an *inquiry* stance in our approach, and be *culturally responsive* to the demographic of the students we serve.

For that reason, Girls Global Academy has adopted the following to prepare our students for both college and career:

- [Common Core State Standards](#)
- [International Baccalaureate](#)
- [Advanced Placement](#)
- Career and Technical Standards for:
 - [Engineering Pathway](#)
 - [Business Pathway](#)

Part II: Graduation Requirements

Girls Global Academy Public Charter School (“Girls Global Academy PCS”) will meet standard graduation requirements set by District of Columbia Public Schools. Girls Global Academy PCS offers International Baccalaureate (IB), Advanced Placement (AP), and Career and Technical Education (CTE) courses in the student’s regular schedule. All Girls Global Academy students will have the same promotion requirements. If a student is recommended for retention, the Success team, led by the College and Career

Readiness Counselor, will review and revise the Personalized Learning Plan, meet with the parent/guardian and student, and articulate the path forward for credit recovery which may include summer school sessions.

Students in Washington, D.C. are required to take at least 2.0 credits of their 24.0 credits in college level or career preparation approved courses to include IB, AP, and CTE courses. Girls Global Academy students will meet the community service requirement of 100 hours through service learning during LEADership academy and out of school service projects. Paid experiences **do not** count for service learning. Students at Girls Global Academy PCS will participate in a variety of service learning experiences each year they are enrolled.

Credits: A minimum of 25.5 credits must be obtained as a student at Girls Global Academy PCS. Please see the breakdown below.

Part III: Promotion Requirements

The mission of Girls Global Academy (GGA) is to provide pathways to lead and learn. The ultimate pathway is to prepare girls to graduate from Girls Global Academy and succeed in the career path of their choice. This begins with academic success and

building social and emotional skills starting in grade 9. To ensure success, GGA has high expectations and all expectations are grounded in academic mastery.

A rigorous academic program will be combined with monitoring, active support, and feedback. GGA has designed a school schedule that is prepared for students who will need academic support and may be at risk for retention. The Coordinators, in consultation with the student advisors, will take an active role in coordinating and communicating with families about their student's progress and in creating personal learning plans with students.

Consistently monitoring student progress towards mastery is combined with curriculum aligned assessments and evaluation of student achievement across all subject areas and grade levels. There are opportunities during the school day for students to receive supplemental academic support, and improve demonstration of mastery by revising substantial pieces of work like essays and projects. Students will be at risk of retention if they do not meet the promotion requirements. All promotion requirements apply to all students enrolled at GGA. The promotion requirements for GGA are the following:

1. Students must earn an average score of a 3 in core academic classes. The core academic course includes English, Mathematics, Science, Social Studies, and Pathways.
2. Students must pass the required number of core courses each year.
3. Students that have 10 or more unexcused absences in a course are eligible for failing that course.
4. Complete the credit requirements each year.

Entering Grade	Minimum Credits Needed	Required Credits for Promotion
10	6	1 English, 1 Mathematics, 1 Social Studies, 1 Science, and two credits in other subjects
11	13	2 English, 2 Mathematics, 2 Social Studies, 2 Science, at least 5 credits in other subjects
12	18	3 English, 3 Mathematics, 3 Social Studies, 3 Science, 1 credit in World Language, and at 5 least credits in other subjects

Transferring students must present their grade transcript at the time of enrollment. Upon review of transfer student transcripts, GGA will honor the credits that have been earned by students from other schools for the same course. GGA will give students a schedule that will prepare them for promotion to the next grade. After admitting students, the GGA grading scale for course work applies. In order for a transfer student to be considered a senior: 18 credits must be earned, three years of high school must be successfully completed, and the student must be enrolled in the required courses needed for graduation. We believe that all students can complete high-quality grade level work. Students who have passed their classes with a 3 or better are promoted to the next grade level. If a student has failed one class, they will do credit recovery, summer school, or a blended learning model.

Students who are failing two or more of their core subject area classes are in danger of retention and will be required to attend the academic resource class. Grade Level teams will monitor students' progress through our MTSS process. Students who enter below grade level will be provided the requisite support elements to include academic resource class, small group instruction, differentiated instruction, summer school, and credit recovery options (described above). Students who decide to enroll in GGA after grade 9 must complete all required courses. GGA will provide opportunities for students in grade 9 or grade 10 to earn credits to ensure they graduate on time. The opportunities will not disrupt the scheduled daily course work. We will work with the student to create the education plan with goals to ensure their path for promotion and graduation is intact. If students are performing below the average score of 3, we will reach out to parents/guardians to discuss all options including retention.

Part V: Grading Policy

A growth mindset is especially critical for high schoolers as work is more challenging and grades potentially have an impact on a student's future. For students to engage in rigorous 21st century work, they must have the ability to persevere and work hard—to commit themselves to academic conscientiousness and complete their studies, even when presented with challenges. They must not say “I can’t do this” but instead, “I can’t do this *yet*.”

Girls Global Academy will adopt the International Baccalaureate grade descriptors. These are on a scale of 1-7 with a 3 or higher as a passing grade. The specific course descriptors for each individual course using the 1-7 grading scale can be found [here](#).

The general grade descriptors for all courses are here for reference:

Girls Global Academy • 733 8th St NW, Washington, DC 20001 • (202) 600-4822
SISTERHOOD, SCHOLARSHIP, SERVICE, SAFETY

- Students should notify the teacher in advance if unable to submit an assignment on time
- The highest grade a student can receive on a late assignment is 3.

Redo and Resubmission of Summative Assessments

If a student earns a grade of 3 or below on a summative assessment, then the student has the option to redo and *resubmit the work after first reviewing the initial submission with the teacher to obtain feedback and support*. Students must resubmit the summative assessment on the new date provided by the teacher. All work for a quarter must be resubmitted five (5) school days prior to the final day of school in order to give instructional staff ample time to review and grade the work. The goal is to keep the higher grade for the assessment.

Homework Policy

Girls Global's overall philosophy on homework is derived from years of teaching practice in classrooms and from research about the benefits of homework. Our staff should ask themselves the following questions prior to assigning homework:

From *Ditch that Homework*:

- Does it increase a student's love of learning?
- Does it significantly increase learning?
- Does it stimulate student's interest in the subject and make them want to delve deeper?
- Are students able to complete the assignment without help?
- Is it differentiated for ability and interest?
- If students didn't have to do it, would they want to do it anyway?
- Is the assignment fair to all students?

When homework is assigned, students should have the following:

- Ample opportunity to complete it.
- Explicit directions on what to do, how to do it, and why they are doing it.
- Explicit directions on when, how and where to submit it.

Homework should take no more than 90 minutes per night.

To support our students in college and career readiness, student-led conferences are an empowering practice for students themselves to use both qualitative (observations; images; symbols) and quantitative (counted; measured; expressed in numbers) data to document and demonstrate their progress. Students take ownership of their learning and also get to practice personal and professional skills in a low stakes environment with people they already know (teachers and families). Student-led conferences also support communication between Girls Global and families and students are provided the space to conduct self-reflection throughout the school year. At the initial conference, students present the progress they have made thus far by leading the discussion, comment on the work samples and demonstrations of learning they have chosen, and set goals 1-2 overarching goals for the school year. During the conference, students will discuss sources of pride and areas of growth for them. Students will prepare for their conferences in advisory, share progress with teachers and families during the conference, and get support from both teachers and families on reaching their goals. [Please see the calendar](#) for the dates of student-led conferences (in-person or remote).

Demonstrations of Learning

Demonstrations of learning are opportunities for students to show what they know based on learning standards and objectives and can take a variety of forms. Examples could include artwork, documentaries, science experiments, essays, and presentations. Demonstrations of learning encourage and empower students both academically and personally/professionally because students present, explain, defend, and evaluate their own work. [Please see the calendar](#) for the dates of demonstrations of learning (in-person or remote).

Part VII: Academic Honesty Policy

At Girls Global Academy, academic honesty is a cornerstone of our school community. Through our pillars of Sisterhood, Scholarship, Service, and Safety, we encourage our students to be lifelong learners who are governed by honesty and integrity. The policies and procedures in this document are informed by the Girls Global mission and vision that support our students in pathways to lead and learn who aspire to be leaders of change for global benefit.

Academic Integrity

Academic integrity is upheld by all members of the GGA Community and a choice to act in an honest and ethical manner through our teaching, learning and assessment practices. Academic integrity at Girls Global Academy is rooted in the IB learner profile that expects all IB learners to be Principled, “to act with integrity and honesty... take responsibility for our actions and their consequences” (IB Learner Profile, IBO, 2017).

Academic Misconduct

Academic misconduct is defined as behaviors and actions that provide a student with an unfair advantage over their peers. Plagiarism is defined “as the representation, intentionally or unintentionally, of the ideas, words or work of another person without proper, clear and explicit acknowledgement.” Presenting the ideas of others as your own may include lack of proper citations, copying works of art visually, orally or digitally, and not acknowledging the original author.

Collusion is defined as work that shows close similarity or when students copy the work of a peer.

Academic Misconduct May Include:

- Presenting the ideas of others as your own
- Allowing a peer to copy your work
- Referencing unauthorized materials during an exam or test
- Communicating with peers during an exam
- Misconduct during examination
- Removing exam materials from the examination room
- Entering the exam room with unauthorized materials
- Taking examination papers
- Other infractions that compromise the integrity of the assessment and exam materials

IB Coordinator Responsibilities

The IB Coordinator ensures fidelity to IB Standards and Practices and ensures compliance to IBCP regulations.

- Provide the IB publication Academic integrity to all staff, students, and families to ensure consistent communication of academic integrity expectations to staff, students, and families
- Manages and monitors the academic report incidents of misconduct and maladministration
- Provide overview of plagiarism checker program to students and families

Staff Responsibilities

All staff share the responsibility of upholding academic integrity by reinforcing our pillars of Sisterhood, Scholarship, Service and Safety by teaching appropriate research skills, understanding and presenting authentic work, and upholding the academic honesty policy as it relates to their students at Girls Global Academy.

Best practices from the GGA staff include the following:

- Provide advice and guidance to students
- Provide instruction and support in research skills to students
- Provide specific guidelines for students to follow in their subject area
- Provide models and exemplars of appropriate research skills
- Provide self-management and supporting structures to students to complete work in a timely manner
- Provide formative assessments and checks to monitor student progress on assignments
- Model the appropriate procedures in teacher-generated documents
- Provide overview of plagiarism checker program to students and families
- Use www.turnitin.com

Student Responsibilities:

Homework Assignments

You are welcome to work with other students on your assignments, but you must (a) list the names of anyone you work with on your assignment, and (b) write up your own solutions to assignments, based on your own understanding of the material. Some students find it helps to take a half hour break between any work you do with other students, and the time you spend actually writing up your own responses to assignments.

Class/Study Notes

You may work with others to develop your subject notes and study notes, however, it is in a student's best interest to be very actively involved in the creation of their own notes. The process of writing study notes helps students learn and recall the material; and is therefore likely to contribute to the academic outcomes a student wants to achieve.

Research

Research should be crafted and written in the student's original voice. Students are encouraged to talk with their classmates about their ideas, but should be working independently on any outlining and content. If you need further assistance with research, then please contact your teacher to schedule office hours. In addition, you are required to cite all sources you used when conducting research. Citations include both direct quotations and instances where you use someone else's ideas. "Sources" include papers, journals, books, conversations, interviews, online media, etc. If the thought did not originate with the student, then the student should provide a source for the information. See your teachers for citing sources and the appropriate format (as it is subject dependent). **When in doubt, just cite sources anyway. Students may also refer to IBO's Effective Citing & Referencing publication.

Additional Resources for support

- Purdue OWL: Research and Citation Sources
- Citation Machine: <https://www.citationmachine.net/>
- Easy Bib: <https://www.easybib.com/>
- Speak up

Notify a staff member when there is knowledge that a peer has participated in academic dishonesty.

Families' Responsibilities

- Encourage your student to ask for help from their teachers
- Encourage your student to check the learning management system for explanations and clarifications of assignments
- Encourage your student to ask teachers about helpful resources students can use for support
- Encourage your student to submit their original work for all assignments and assessments that reflect their skills and abilities

Process for investigations

All teachers use turnitin to check for plagiarism and collusion for any written essays, papers, and projects.

If a staff member suspects that academic dishonesty has taken place, the following actions are taken:

- Report the infraction to the IBCP coordinator
- The GGA Code of Student conduct will be followed in order to determine the consequences for academic dishonesty
- Consequences for academic misconduct will utilize the IB Penalty matrices (IB Academic Integrity, 2019, pgs 33- 45) and can include a range from a warning letter to the student, receiving no score on the work, not submitting the work to IB, no grade notification on the students IB transcript, dependent upon the severity of the infraction.
- The IB Coordinator is responsible for the investigation of work submitted to the IB that is either not authentic or plagiarized.

****Please refer to the Girls Global Academy discipline policy to read more about our response to academic dishonesty.**

****This policy was written during charter authorization by the co-founders of Girls Global Academy following the process for developing school policies from IB's Career-related Programme: From Principles to Practice and reviewed by a Girls Global Academy Board Member.**

Part VIII: Child Find and Support for Students with Disabilities

What is Child Find?

Local Education Agencies must have procedures in place in order to identify, locate, and evaluate all children with disabilities residing in the District who are in need of special education and related services, including children with disabilities attending private schools, regardless of the nature or severity of their disabilities.

As such, Girls Global Academy takes a proactive approach to assessing all students and monitoring for signs of progress, or lack thereof, that may be indicative of deficits in student performance that require an evaluation for special education services. We use a Response to Intervention approach that allows for a robust cache of Tier 2 services meant to give access to quality research-based interventions to any students who have demonstrated evidence of struggling with the grade level academic and functional expectations outlined in our general education curriculum. Students who have received appropriate Tier 2 and who fail to make expected progress accordingly, may qualify for special education services, and should be referred for a special education evaluation.

Introduction to Child Find

Under the IDEA, Girls Global Academy is responsible for conducting continuous efforts intended to identify, locate, and evaluate all children with disabilities between the ages of three (3) and twenty-two (22) years of age enrolled in Girls Global Academy, including children with disabilities who are homeless, children who are in the custody of the District of Columbia Child and Family Services Agency (CFSA) or committed to the District of Columbia Youth Rehabilitation Services Agency (DYRS), children who are making progress grade to grade, and highly mobile children, who are in need of special education and related services. These duties are called Child Find responsibilities. This policy establishes procedures for fulfilling Child Find responsibilities at Girls Global Academy, and applies to all children enrolled in Girls Global Academy and all staff employed by Girls Global Academy. Girls Global Academy staff is expected to know and act in accordance with the requirements and procedures established by this policy. Girls Global Academy trains staff on an annual basis to ensure staff understand and execute Child Find responsibilities.

Points of Contact

Parents are encouraged to speak with any Girls Global Academy staff if they have concerns about their child. Parents and other stakeholders should contact one of the following Girls Global Academy staff to discuss Child Find, the referral process, and the availability of special education programming at Girls Global Academy:

Molly Green - Special Education Coordinator; mgreen@girlsglobalacademy.org

Olivia Laguerre - School Social Worker; olaguerre@girlsglobalacademy.org

Shamira O'Neal - Principal & Director of Academics; soneal@girlsglobalacademy.org

Target Populations

This policy and Girls Global Academy Child Find efforts apply to children between the ages of three (3) and twenty-two (22) years of age enrolled in Girls Global Academy. However, Girls Global Academy currently only serves students in DC who are enrolled in grades 9-12, those students serve as our target population including children who are:

- Homeless;
- In the custody of the District of Columbia Child and Family Services Agency;
- Committed to the District of Columbia Youth Rehabilitation Services Agency;
- Making progress grade to grade; and
- Highly mobile children.

Outreach Efforts

To ensure the local and school communities are aware of the availability of special education and related services for eligible children with disabilities and the methods for requesting such services, Girls Global Academy provides public notice through a variety of methods:

- Girls Global Academy provides information to parents and the school community at school events such as parent-teacher conferences, back-to-school events, summer enrollment events, etc.
- Girls Global Academy publishes information and relevant dates in school manuals, calendars, and on its website.
- Brochures regarding special education services are available for parents and the public in the front office.

Coordination with Non-educational District Agencies

To ensure coordination with appropriate District agencies to facilitate the identification, location, and evaluation of children with disabilities enrolled in Girls Global Academy, Girls Global Academy maintains contacts with the following District agencies:

- The Child and Family Services Agency (CFSA)
- Department of Behavioral Health (DBH)

Girls Global Academy conducts meetings as needed with representatives of the above agencies to ensure open and cooperative lines of communication regarding Girls Global Academy's Child Find, referral, and initial evaluation processes and procedures, as well as continuously updating agencies of changes in appropriate points of contact.

Girls Global Academy may establish agreements with other entities responsible for administering various education, health, and social service programs to children from birth through age 22. Those agencies include, but are not limited to: District of Columbia Public Schools (DCPS), Department of Human Services (DHS), Department of Healthcare Finance (DHCF), Department of Health (DOH), Department of Behavioral Health (DBH), Child and Family Services Agency (CFSA), and the Department of Youth Rehabilitation Services (DYRS).

Parent Engagement

Parents may obtain information about the availability of special education and related services through this policy, information posted on our website at girlsglobalacademy.org, or by contacting Molly Green at mgreen@girlsglobalacademy.org. Girls Global Academy also maintains written materials for parents, which can be found at the school's front office. Girls Global Academy staff is required to provide information to parents upon request and at parent-teacher conferences.

Referral Process

A referral is documentation provided by the child's parent, or other referral source, which clearly states why it is thought that the child may have a disability. Girls Global Academy is required to complete an initial evaluation and determine if a child is a child with a disability eligible for special education and related services under IDEA within 60 days of receipt of parental consent. Girls Global Academy is required to contact the parent to set up an appointment to review the referral process and get consent within 30 days of the referral.

The 60-day requirement does not apply if:

- The parent fails or refuses to respond to a request for consent for the evaluation;
- The parent of the child repeatedly fails or refuses to produce the child for the evaluation; or
- The child enrolls in another LEA prior to the determination of eligibility.

If a parent or community member would like to request an initial evaluation to determine if a child is in need of special education and related services, please contact Molly Green at mgreen@girlsglobalacademy.org. All Girls Global Academy staff must accept an oral or written referral for initial evaluation. Upon receiving an oral referral, Girls Global Academy staff must assist any outside referral source in documenting the referral in writing, and must document the date of the referral within three (3) business days of receipt. If the staff member documenting the initial parent referral is not Molly Green at mgreen@girlsglobalacademy.org then that staff member must bring the written referral to Shayne Swift at shayne@girlsglobalacademy.org immediately (within in the next 4 hours) either in person or by email.

Girls Global Academy accepts referrals for initial evaluation from the following persons:

- A student's parent;
- The student, provided that educational rights have transferred to the student;
- Employees of Girls Global Academy who has knowledge of the student; and
- Employees of another LEA or OSSE, who have knowledge of the student.

Girls Global Academy maintains regular contact with community-based referral sources, and works to collaborate with community-based service providers to provide information on the availability of special education and related services and the means through which parents or organizations may submit a referral.

After Girls Global Academy has received a referral, Girls Global Academy must make reasonable efforts to obtain parental consent for an initial evaluation within 30 days of the referral, which includes attempting to contact the parent at least three (3) times on three (3) different dates using at least two (2) modalities. Reasonable efforts must begin no later than 10 business days from the referral date. Girls Global Academy shall conduct an analysis of existing data on the student to determine if additional assessments are necessary. Existing data that may be considered may include but is not limited to teacher observations, classroom assessments, schoolwide screenings and assessments, state assessments, student grades and records, parent reports, health

records, or data from other interventions. Girls Global Academy will provide the parent of a child suspected of having a disability with information about the nature of any additionally required assessment.

Screenings and Response to Interventions

Girls Global Academy implements a comprehensive screening process to determine if a child should be referred for an evaluation. Screenings utilize assessments and tools that are generally applied across the entire student population. Parental consent is not required for Girls Global Academy to conduct a uniform, school-wide screening. A screening conducted by a Girls Global Academy teacher or specialist to determine appropriate instructional strategies for curriculum implementation does not constitute an evaluation for eligibility for special education and related services and does not require parental consent.

At all grade levels, school staff use interim assessments, classroom data, attendance, behavioral records, and other data to determine if students require additional interventions through the Girls Global Academy Response to Intervention (RtI) efforts.

Girls Global Academy screenings and Response to Intervention (RtI) efforts must not delay the initial evaluation of a student who may be a child with a disability in need of special education and related services.

Parent Procedural Safeguards and Rights

Parents' legal rights during the Child Find process are defined by IDEA and District of Columbia law. In the event of a disagreement, parents may pursue dispute resolution and due process rights, including mediation, due process complaints, or state complaints. Parents can learn more about their rights under IDEA by referring to the Part B Procedural Safeguards located on [OSSE's website](#) or by contacting Molly Green at mgreen@girlsglobalacademy.org to obtain a copy of their procedural safeguards.

Data Reporting

In accordance with District of Columbia law, Girls Global Academy counts and reports the number of children with disabilities receiving special education and related services annually on October 5 or the date set for the annual pupil count required by D.C. Official Code § 38-2906.

The ability of Girls Global Academy to share personal information about a child shall be governed by the Family Educational Rights and Privacy Act (FERPA), 20 USC §1232g, 34 CFR Part 99.

Part IX: Rights of Parents of Students with Disabilities IDEA Part B Notice of Procedural Safeguards

As a parent, you have rights known as procedural safeguards that apply to every aspect of the special education process. Federal and state laws and regulations outline the procedural safeguards that are designed to ensure that children with disabilities with an Individualized Education Program (IEP) receive a free appropriate public education (FAPE). This document serves as your procedural safeguards notice and will help you understand specific rights available to you and your child through the Individuals with Disabilities Education Act (IDEA) and District of Columbia laws regarding special education.

Section III: Service

Part I: What is Service-Learning?

Service-learning is used as an instructional strategy to address existing course goals and objectives through meaningful, real-world engagement. GGA staff have the latitude to develop meaningful projects that align with and across course goals and objectives.

Service-Learning & Special Populations

Service-learning supports EL students in English Language Development through a meaningful and purposeful contextual lens and enhances social interactions with their peers and the larger community. EL students may also get the opportunity to leverage both their primary and second languages during projects. Special Education students

will participate in service-learning in the least restrictive environment with support based on IEP, and 504 accommodations and modifications. This approach provides case managers with additional data points to develop goals for individualized education plans and post-secondary transition plans.

GGA Commitment to Service-Learning

Girls Global Academy is committed to supporting students in the facilitation of their own learning through service-learning as an interdisciplinary, skills-based, authentic approach. GGA believes that the most effective service-learning requires a co-curricular (experiences that are connected to or mirror the academic curriculum) approach balancing service as a part of both academic coursework during the school day and experiential learning outside of the classroom. Service-Learning as an instructional tool will follow the same scaffolding structure below:

Benefits of Service-Learning

- Students are more likely to engage in their local communities when engagement in community is fostered at school.
- Students are more likely to excel academically when service-learning is utilized as an instructional strategy.
- Students who participate in service-learning see improved health outcomes.
- Students develop invaluable personal and professional skills through service-learning.
- Students develop empathy and understanding of others through service-learning.
- Students have a competitive edge when they have engaged in service-learning over time as it demonstrates commitment.
- Students are eligible for a variety of scholarships and programs as a result of meaningful service-learning.

Part II: LEAD Model

The LEAD model is a four-step process that students can use to lead a meaningful service project in their community. The LEAD model will be implemented through both academics and experiences.

The first step is to learn about an important issue in your community.

You can do this by finding academic research online, going to the library, doing a Google news search, or conducting a community audit. Before you get started, it is important to establish baseline questions to help you learn more about yourself and the issue that you would like to address. For example:

- What is the issue you are focusing on and who is affected by this issue?
- How do you ascertain that it is a genuine community need?
- How have other people addressed this issue?
- What community assets can be used to address this issue?
- What skill sets need to be developed to address the need?
- What skills do you have that could be used to make an impact?

The second step is to engage with other people in your community.

At this point, you should have a basic knowledge of the issue you would like to address. Meet with friends, family, classmates, and colleagues who care about the issue and/or can provide feedback. Share what you have learned and learn from your peers. Discuss next steps. For example:

- Who else is working on this issue? Can you collaborate with them?
- In what ways could you address this issue?
- How will you communicate with other stakeholders?
- How will you incorporate multiple viewpoints about the issue?
- How will you define and measure your impact? Are your peers interested in helping you address this issue? If yes, what skills do they have that could help you?

Identify a subject matter expert or mentor who can provide constructive feedback. Share what you have learned, the specific action or actions you would like to take, the time it will take, what resources you will need, and the metrics you would use to measure impact.

The third step is to take action “ASAP”: You can do this through:

- Awareness – Share information and teach others to positively change people’s behaviors. Examples include encouraging seat belt use and safe driving, recycling, healthy eating, discouraging smoking, bullying, and teaching families how to be prepared for disasters.
- Service – Use creativity, time, and talent to meet a need in the community. Examples include tutoring, planting trees, improving school buildings, clearing

beaches and parks, distributing food or serving meals, and teaching senior citizens how to use technology.

- Advocacy – Speaking out, joining others, and persuading policy makers to change regulations and laws. Examples include rallies, marches, protests, meeting with elected officials, speaking at public forums or civic meetings, voter education, candidate engagement, organizing petitions, and online advocacy.
- Philanthropy – Collect and donate financial and in-kind support. Examples include raising money for hurricane disaster relief, clean water wells, mosquito nets, or for research to treat and cure diseases, food drives and supply drives, and collecting books for children.

The final step is to demonstrate the impact that your project has made in the community and the growth that you have made as an individual. Demonstrations can take the form of performances through the arts which include skits, poems, songs, displays, and photos. Additional examples include:

- Creating websites, videos, and slide presentations with before/after pictures.
- Presenting to a group of people (e.g., school board, city council) to showcase the quantitative and/or qualitative impact you made in your community.
- Share your results with local media and/or write a blog or article for your local or school newspaper.
- Teach another group of youth or community members what you learned from your project.
- Host a gathering or symposium to share your results and thank everyone for their contributions.
- Discuss ways that you can sustain your project including giving other students an opportunity to serve or to take on a leadership role.

LEAD Model and the Global Goals

- The 17 UN Sustainable Development Goals were adopted by world leaders in 2015. What makes them unique is they are a call to action for all countries to participate in a global partnership to eradicate issues like global warming, poverty, and gender inequity. The Global Goals call on governments, the private sector, NGOs, and “ordinary” citizens to work collaboratively to solve these issues. These issues are urgent as they impact our students’ futures. Girls Global students need an understanding of the issues, a stake in working on the solutions, and a voice in advocating for how we tackle the issues in both their local and global communities.
- Research on the adolescent brain has shown that at this age, the brain is in a stage of development where more risks are taken. What better time to support

our students in healthy risk-taking by posing issues as problems to be solved, and allowing them to propose bold solutions?

Part III: Student Engagement in Service-Learning

All students who attend Girls Global Academy are required to successfully complete four service-learning projects that are integrated into the curriculum. Upon completion of the projects, a student will have fulfilled 40 of the 100 service-hours required by the District of Columbia's Board of Education.

Grade	Hours Equivalent
9	10
10	10
11	10
12	10

Students have additional opportunities to complete 60 hours of service-learning through Wednesday LEADership Academy, dedicated Days of Service, and independent service hours (see below).

Part IV: Classroom Service-Learning

Service-learning takes place in a variety of settings at Girls Global Academy. Service-learning instruction is facilitated by all content teachers based on course content, objectives, and standards.

Classroom teachers can help students select an appropriate project, integrate the project into the curriculum, walk them through the LEAD mode, provide them time management guidance, and introduce them to potential partners. The teacher also monitors student activities, and facilitates students' reflection.

GGA staff will have access to the service-learning toolkit for the development and facilitation of service-learning projects. The school will maintain an electronic

repository of service-projects. Staff will be provided with dedicated time to work on service-learning projects through the service-learning toolkit, weekly collaborative planning, Wednesday professional developments, and dedicated professional development days.

Types of service that may be conducted through the co-curricular approach include the following with the use of ASAP:

- Awareness – Share information and teach others to positively change people’s behaviors. Examples include encouraging seat belt use and safe driving, recycling, healthy eating, discouraging smoking, bullying, and teaching families how to be prepared for disasters.
- Service – Use creativity, time, and talent to meet a need in the community. Examples include tutoring, planting trees, improving school buildings, clearing beaches and parks, distributing food or serving meals, and teaching senior citizens how to use technology.
- Advocacy – Speaking out, joining others, and persuading policy makers to change policies and laws. Examples include rallies, marches, protests, meeting with elected officials, speaking at public forums or civic meetings, voter education, candidate engagement, organizing petitions, and online advocacy.
- Philanthropy – Collect and donate financial and in-kind support. Examples include raising money for hurricane disaster relief, clean water wells, mosquito nets, or for research to treat and cure diseases, food drives and supply drives, and collecting books for children.

Girls Global will continue to vigorously pursue community partnerships that guide our service-learning programming to meet both local and global needs. Our initial partnerships include the following organizations:

Organization Name	Owns
Youth Service America	Coaching; Professional Development; Technical Assistance
LearnServe	LEADership Academy on Wednesdays

Part V: Enrollment & Transfer Policies

When students enroll in or transfer to GGA, enrollment staff will make families aware of the 100 service-hour minimum to graduate from a District of Columbia high school. Students who have accumulated service-hours prior to enrollment and/or transfer to GGA will be required to provide documentation of previously completed service-hours. All previously completed and documented hours shall apply to the 100 service-hour graduation requirement. Student records will be reviewed and documentation of past service is filed with the student's school records. During new student orientation, GGA

culture of service documents will be reviewed with both the student and parent/guardian. No exemptions for service-learning shall be granted, including for second semester seniors.

Students who withdraw, transfer, or graduate from GGA will have all of the hours of completion documented in the GGA student information system and included on report cards, transcripts, and in their student records. In addition, periodic audits will be conducted throughout the school year by the advisory teacher and the college and career counselor as a part of scheduled updates for student personal learning plans. Contact information for the Director of Culture is available to the new students and their parents/guardians to discuss any questions or concerns about service-learning hours.

If a (9th/10th grade) transfer student enrolls at Girls Global and has already completed all required service-hours for graduation, then the school must identify an internship opportunity for the student to enroll in on Wednesdays in lieu of LEADership Academy, or participate in LEADership Academy with their cohort.

Students will document their service-learning projects through the use of an e-portfolio. The portfolio will include a variety of forms of documentation such as ongoing reflections, videos, photos, planning processes, research notes, interviews, and observations. The portfolio can serve as part of a curriculum vitae for a student applying for an internship, job, apprenticeship, and college admissions.

Part VI: Connections

Service-learning and Social-Emotional Learning are complementary to one another as they both promote positive youth development. Social-emotional learning provides students with the necessary competencies and service-learning provides authentic

opportunities to practice those competencies. We believe that the combination of these elements of school culture service-learning create an environment where students are positive and eager to participate in school sponsored activities and programs to better the school and community at large.

Service-learning is a part of GGA's strategic plan and incorporates policies to ensure students meet the District of Columbia's graduation requirement (see OSSE 2203.3F). Girls Global Academy students understand that service is conducted under organizations that meet 501(c)(3) status.

- Students cannot receive monetary compensation for the service.
- Service-Learning during school hours must have prior approval.
- Students cannot be the recipient of service and earn hours at the same time.

Student Leadership

Student leadership is integral to GGA service-learning projects. In the 9th and 10th grades, service-learning facilitators will provide gradual release by ensuring that students understand the mechanics of a quality service project during the first quarter through an exploration of the Global Goals. In the second and third quarters, students take ownership of different facets of the project. In the 11th and 12th grades, students will execute their own projects with supervisor approval and check-ins.

Dedicated Days of Service; GGA may host Day of Service events (opportunities for independent hours).

Part VII: Service-Learning Documentation

Students are required to document their community service hours by submitting a signed, complete [this activity verification](#) and [service learning form](#) to earn community service hours that count towards the graduation requirement.

Please contact Danika Robison, GGA's service-learning coordinator, drobison@girlsglobalacademy.org or 202-600-4822 for additional information regarding earning community service hours.

Section IV: Safety

Part I: Attendance Policy and Procedures

Attendance Matters!

Attendance Matters at Girls Global Academy. All students are expected to attend school and class all day, every day, every period that school is open and in session. Daily attendance is paramount to uphold our scholarship pillar and continuity of learning. Girls Global Academy's safety pillar compels us to know where students are and when they are in or out of school as a part of ensuring school and student safety.

Attendance Procedures

Attendance will be recorded for each student during each class period and/or learning environment. Our first period of learning begins at 8:15 am - 8:45 am. Girls Global Academy values safety and an alert will be made for students who have been marked absent, have not provided notice to the attendance coordinator, or have not arrived, by 9:00 am. The alert will be sent to the family member of record.

Tardy

Arriving at school on time is important. Students who have not arrived by 8:15 am are marked tardy. Students who are late to class will be marked as tardy for that class if they arrive in class five (5) or more minutes after the official start of the period.

Students enter their scheduled course regardless of what time they arrive. Teachers will make every effort to make late arriving students feel welcomed. If a student attends a portion of the class, they will be considered present and tardy.

Excused Absences

Absences are excused for the following reasons:

- Illness of the student (a doctor's note is required for a student absent five or more days)
- Medical or dental appointments for the student
- Death in the student's immediate family
- Exclusion by direction of the authorities of the District of Columbia, due to quarantine, contagious disease, infection, infestation, or other condition requiring separation from other students for medical or health reasons
- Necessity for a student to attend a judicial proceeding, or court-ordered activity, as a party to the action or under subpoena
- Observance of a religious holiday
- Religious event celebration outside of a religious holiday (up to five cumulative days)
- Absences to allow students to visit their parent who is in the military, immediately before, during, or after deployment
- College visits for students in 9th – 12th grades (up to three cumulative days)
- Absences of expectant or parenting students for a time period specified by their doctor and any accommodations mandated by law
- Illness of a child for parenting students (a doctor's note for the student's child is required when the student is absent five or more days)
- Take Our Daughters and Sons to Work Day
- An emergency or other circumstance approved by the GGA Principal

Distance Learning Attendance Policy

In the event of school in a virtual setting, attendance requirements still apply, though how attendance is checked is altered. Students will be required to login and be present in a virtual classroom via a learning management system (LMS). To ensure attendance, students may be required to show their face on a webcam, unless excused by a specific students' action plan.

Additional Policy Requirements

Girls Global Academy's Attendance Policy is aligned, compliant, and accountable to all local regulatory agencies' policies which are subject to change.

Immunization Attendance Policy

District law and regulations require all schools in the District of Columbia to verify student compliance with the immunization requirements as part of enrollment and

attendance. For questions contact nurse@girlsglobalacademy.org If a student is not compliant, the school must immediately notify the parent, guardian, or adult student in writing of the missing immunization(s). If the student does not come into compliance within a 20-school day period, the school must remove the student from attendance until the immunization certification is secured by the school. Students are expected to participate in virtual learning activities and complete assignments. This includes the COVID-19 vaccination with a booster for students 12 years or older.

DC PCSB Reporting Policy

The DC Public Charter School Board requires GGA to report and take action on students' absences and chronic truancy.

OSSE Requirements for Reporting

The Office of the State Superintendent of Education requires GGA to report attendance and attendance interventions of students. They also regulate how student's daily attendance rates are calculated based on percentage of period level attendance. DC law requires educational institutions to notify OSSE, within two business days, of the 10th unexcused absence of any minor student. OSSE is then required to provide the student's parent with a truancy prevention resource guide that covers certain topics, if the parent has not already received the truancy prevention resources before the 10th unexcused absence.

Uniform and Dress Code FAQs

Where can I get uniforms?

GGA has contracted with a uniform vendor Risse Brothers. All uniforms are available for purchase online <https://www.rissebrothers.com/> and can be shipped to your home. In addition, uniforms can be purchased in person at their facility: 9700 Martin Luther King Jr Highway Suite B, Lanham, MD 20706. (301) 220-1985

Why does GGA not have a more restrictive uniform and dress code?

GGA's uniform and dress code aims to follow best practices, is informed by the research, and is intended to allow our school community to focus on their education. In 2018 the National Women's Law Center commissioned a report of Washington D.C. 's dress code titled: [Dress Coded: Black girls, bodies, and bias in Washington D.C. Schools](#). This report tells us that most schools have overly strict dress code rules, focus on what's wrong with girls' bodies, and are based on race and sex based stereotypes. Therefore GGA strives to be different when it comes to uniform and dress code that focus more on education, and allows girls to make choices for themselves.

How did GGA decide on this uniform and dress code policy?

GGA's co-founders believe that it is important to engage parents and students about what the uniform should look like at GGA. We had conversations with families and students early in the process, solicited feedback from all school community members through a survey, and finally proposed a version of this policy for enrolled parents, families, and students. Through this feedback process the policy was refined and improved and will continue to be refined as GGA grows and learns more from its families and students.

Can I as a parent (or family) limit what my student wears?

Families are encouraged to have conversations and make family based decisions on what you think is appropriate for school. Some families prefer to limit the color and types of pants, while others prioritize choice. GGA encourages families and students to talk about how clothing can impact your identity and the perception others have of you.

How will the dress code be enforced?

Students will be checked for the dress code as they enter the building and in their advisory first period. See *Discipline Policy* for additional information.

What if I forget my uniform?

All it takes to be in uniform is a uniform top. GGA recommends you keep an extra uniform top in your locker just in case. But if you need a shirt we will have extra

shirts available to borrow. If you are wearing an item that is out of dress code, you may be required to call a parent/family member to bring the needed item to school.

Internet Safety Tips for Families

Learn the basics of internet safety!

Children use a variety of online services, and each of these services can have different safety concerns. However, there are some basic tips which you can employ no matter how your children use the Internet:

- Keep the computer in a high-traffic area of your home.
- Establish limits for which online sites children may visit and for how long.
- Remember that Internet technology can be mobile, so make sure to monitor cell phones, gaming devices, and laptops.
- Surf the Internet with your children and let them show you what they like to do online.
- Know who is connecting with your children online and set rules for social networking, instant messaging, e-mailing, online gaming, and using webcams.
- Continually dialogue with your children about online safety.

Start a discussion with your child:

- What are your favorite things to do online?
- What is personal information? Why should you keep it private?
- What could you do to be safer online?
- What would you do if anyone online asked to meet you face-to-face?
- Besides me, who do you feel that you can talk to if you are in a scary or uncomfortable situation?
- If you're curious to learn about things, what do you do? Who do you ask about that information?

GGA intends to participate in the Community Eligibility Program as a part of the National School Lunch Program to be able to provide free lunch to all families, but this application is pending final approval. Families may be asked to complete and submit a Free and Reduced Meal (FARM) Application annually so that the school remains in compliance with Federal and local requirements.

Food Allergies

GGA will make every effort to provide accommodations to students requiring alternative nutrition in line with the NSLP. Families are asked to inform GGA as a part of the enrollment process. If accommodation needs change, please notify the main office immediately. GGA reserves the right to make additional restrictions to allow food based on student safety requirements.

Part VI: Health Policy

Health Forms and Records

All students must provide the following forms or their enrollment may be revoked:

- [Universal Health Certificate](#)
 - [Oral Health Certificate](#)
- If you need additional Information on immunizations please visit:
- [DC Health Immunization Requirements](#)

An adult must bring the medication to the Health Office in the original prescription container. Due to safety concerns, a student may not carry any medication except where explicitly stated in the health orders, such as an inhaler.

The school nurse maintains medical records on each student. We must have immunization records and emergency contact information for each student. Guardians should inform us immediately of any special health problems or concerns. If a student becomes ill during the day, he will be given immediate attention. If she cannot return to class, her guardian will be called to come pick her up immediately.

Over the Counter Medications

GGA employees cannot provide over the counter medications to students without a medical professional's written instructions.

Stay Home Policy

GGA asks that parents and guardians keep a student home who exhibits one or more of the following symptoms: fever, vomiting, diarrhea, difficulty breathing, severe coughing, and a rash or hives of unknown origin. A student may not return to school until they are free from vomiting, diarrhea, or fever for 24 hours, or a doctor's note has been provided if requested. We require that an antibiotic that has been prescribed for any contagious illness be in the student's system for a minimum of 24 hours before returning to school. Health Office staff will provide communication to parents of injuries and illnesses that occur during the day by phone call or a note home. We ask that parents and guardians

keep the school updated with working phone numbers so they may be reached, especially in case of an emergency.

Emergency Preparedness

GGA has staff that are trained in CPR. We also maintain AED machines and staff training in their use during emergencies. 911 will be called for all medical emergencies.

Safety Procedures

Full emergency procedures and protocols are shared only upon request from the Director of Operations in the main office to ensure the safety of our procedures themselves. Here, we have provided an outline of the procedures in place.

School Security

- Where possible, GGA doors are always locked from the exterior of the building and locked from the inside to ensure the space remains secure for our students, while maintaining allowable emergency egress.
 - GGA contracted with outside security personnel to provide additional supervision during entry and exit times.
 - GGA reserves the right to conduct search and seizure on an as-needed basis. We do not have daily metal detector screenings, but will periodically conduct bag and locker searches as needed to ensure the safety and wellbeing of our students.
- Guest Policy
- GGA allows guests to visit the building, including parents and families, provided they are not interrupting instructional time. Parents and guardians may shadow their student(s) with advanced notice.
 - All guests will be required to sign in--a process that includes scanning a valid photo ID which provides a quick background check service to ensure the safety of our school community. Without a valid school ID, you will not be permitted to enter the building.
 - If a parent or guardian would like to meet with a teacher, principal, SPED Coordinator, or other school staff - they must make an appointment through the main office or with the person they are visiting. Those without an appointment may not be able to meet with the person they wish to see at that time.
 - Those guests or volunteers who are in the building for more than 10 hours per week will be required to be fingerprinted.

Emergency Drills

GGA conducts regular emergency drills to ensure preparedness of students and staff during actual emergencies. This includes:

- Fire Drills - all people are required to evacuate the building and go to the corner of 8th and H street, if the drill is extended beyond a few minutes, or there is inclement weather, we will go to the courtyard of the Portrait Gallery. Students are not permitted to leave the supervision of the assigned teacher without being signed out by an authorized contact.
- Lockdown drills - all personnel are required to follow procedures and stay in place and out of sight until released by school or police authorities.

Part VII: Search & Seizure Policy

Girls Global Academy may use metal detectors or other detection devices to ensure school safety. Girls Global school personnel may search anything on school property such as lockers, and personal belongings. ***Unauthorized items and/or items that threaten the safety of others will be seized and appropriate disciplinary action will be taken.*** Personal property of a random group of trailblazers can be searched with reasonable suspicion or if the group of trailblazer searched is chosen at random. Searches of a trailblazer themselves may also be done with reasonable suspicion. The search must be done by a staff member who is the same sex as the trailblazer and there must always be a second staff member present as a witness. Trailblazers and parents are responsible for checking clothing, book bags, purses and all trailblazer personal possessions for illegal and unauthorized items before entering the school safety zone.

Part VIII: Bullying Prevention Policy

Girls Global Academy expects students to treat one another in accordance with the values of the school and contribute to a positive and joyful culture. Acts of bullying interrupt and disrupt the learning experience for our school community. GGA aims to provide a safe, inclusive, and equitable environment and all members are encouraged to report incidents of harassment, intimidation, and bullying. The bullying policy is intended to describe how the school will identify, prevent, and respond to bullying, to

work with students and families to remedy situations, and to connect students with services as needed.

by the school, at any transit stop at which youth wait to be transported to the school or an event sponsored by the school, or through the use of technology or an electronic device owned, leased or used by the school.

Bullying is also prohibited at a location, activity, function or program that is not school related through the use of technology or an electronic device that is not owned, leased or used by the school, if the act or acts in question create a hostile environment at school for the victim, infringe on the rights of the victim at school or materially and substantially disrupt the education process or the orderly operation of a school.

Retaliation against a youth, volunteer or staff member who reports bullying, provides information about an act of bullying, or witnesses an act of bullying is also prohibited.

Administrators will make expectations clear to students and staff that bullying will not be tolerated and will be the grounds for disciplinary action up to and including suspension and dismissal for students. Retaliation against anyone who reports bullying, provides information about an act of bullying, or witnesses an act of bullying is also prohibited.

Proactive approaches for bullying prevention

Anonymous Reporting

Reports made by students, parents, and community members may be made anonymously, although no formal response will be taken solely on the basis of an anonymous report. However, such a report may trigger an investigation.

Bystander Policy

Students are expected to report rumors of bullying, planned bullying, as well as bullying actually observed. Students who watch and laugh, but do not report what they have witnessed, are considered bystanders and will be treated as participants.

Investigation Procedures

The Dean of Students will be responsible for investigating reports of bullying and can be contacted at 202-60-4822 or tboyd@girlsglobalacademy.org. If an incident of bullying or retaliation is reported, the Dean of Students will respond quickly and appropriately to investigate and intervene. Complaints or reports of bullying/ retaliation will be investigated in an adequate, reliable and impartial manner. Each investigation will include, as necessary, interviewing witnesses, obtaining documents and allowing the complainant and accused to present evidence.

Investigations will be initiated within two (2) business days of receiving the complaint. During that time, the Principal will also take the following steps:

- Create a written record of the complaint, which will also be included in the final determination letter;
- Take appropriate action to protect, to the extent possible, the safety of the alleged target, which may include contacting relevant parties, intercepting the target or alleged perpetrator if information is received regarding a pending act of bullying or retaliation, and ascertaining the presence of teachers or other employees at a location that has been identified as the site of a pending act of bullying or retaliation;
- Inform the target, alleged perpetrator, and if applicable, witnesses, of the alleged incident and of the initiation of the investigation;
- Make a good-faith attempt to inform the parents or guardians of the target about the alleged incident and any planned investigation, if the target is less than eighteen (18) years of age and if the contact information for the parents or guardians is available or can be requested. If the [title of individual responsible for investigations] determines that informing the parents or guardians may cause harm to, or endanger the health or well-being of the target, the [title of individual

responsible for investigations] shall document facts giving rise to such determination, and document the decision not to inform in writing;

- Make a good-faith attempt to inform the parents or guardians of the alleged perpetrator about the alleged incident and any planned investigation, if the alleged perpetrator is less than eighteen (18) years of age. If the [title of individual responsible for investigations] determines that informing the parents or guardians may cause harm to, or endanger the health or well-being of, alleged perpetrator, as the case may be, the [title of individual responsible for investigations] shall document facts giving rise to such determination, and document the decision not to inform in writing; and
- Take into account whether the individuals involved have disabilities and whether there are resulting protections or considerations that must be included in the investigation.

Within thirty (30) days of receiving a report of bullying, the Principal will conduct the investigation and respond to the parents of the students involved in writing, summarizing the course and outcome of the investigation and identifying an appropriate resolution. The written determination will also include the following:

- A description of the incident(s) including the names of individuals involved and behaviors alleged, location of occurrence(s) and whether or not bullying occurred;
 - Whether the incident was based on a trait that is covered in the Human Rights Act (as listed in the definition of bullying); and
 - The actions that were taken as a result of the findings.
- If it is determined that bullying has occurred, appropriate corrective and remedial action will be taken. Girls Global Academy will make determinations as to whether a reported incident constitutes bullying based on all of the facts and circumstances surrounding the incident. Girls Global Academy will use a preponderance of the evidence standard (i.e., more likely than not that bullying occurred) when resolving complaints.

Steps will be taken as necessary to protect suspected victims of bullying during the course of the investigation process. Girls Global Academy will make every effort to protect confidentiality during the course of the investigation. However, if the Dean of Students learns during the course of the investigation that the reported incident involves criminal activity, the Dean of Students shall communicate such information to the appropriate enforcement agency. If the reported incident or statements during the investigation indicate credible and imminent threat of harm or criminal activity, the

Dean of Students and Principal shall immediately report such information to the appropriate law enforcement authorities and to the Principal. The individual responsible for conducting the investigation will be responsible for making determinations about confidentiality.

Girls Global Academy will take steps to provide the complainant and accused with periodic updates on the status of the investigation. Once a determination has been made, Girls Global Academy will notify the complainant and accused about the outcome of the investigation, the result of any school disciplinary proceeding that results and the appeal process. [title of individual responsible for investigations] will determine if parents or guardians should be informed prior to or after the investigation of the incident.

Girls Global Academy may notify appropriate law enforcement agencies if school staff determine that the behavior cannot be safely and appropriately handled through school-based disciplinary action. Law enforcement agencies will be notified if mandatory reporting requirements are triggered.

history of problem behavior from the person committing the act at issue. The Dean of Students will confer with the Principal to determine what disciplinary consequences are appropriate.

Appeals

Any party who is not satisfied with the outcome of the initial investigation and response from Girls Global Academy may appeal in writing to the Principal. Appeals must be made within 30 days of the conclusion of the initial investigation. The secondary investigation shall be completed within 30 days of receipt of an appeal, unless: (1) circumstances require additional time to complete a thorough investigation; (2) the higher-level authority sets forth those circumstances in writing; (3) the additional time is not to exceed 15 days. After completing the secondary investigation, the Principal shall notify the parties in writing of the results of the investigation and of the party's ability to seek additional redress under the DC Human Rights Act.

Part IX: Sexual Harassment Policy

Sexual Harassment Prohibited

Sexual harassment, sexual assault and dating violence are strictly prohibited on school grounds, property immediately adjacent to school grounds, at school sponsored or school related activities, functions or programs whether on or off school grounds, on or off school bus or other vehicles owned, leased or used by the school, or through the use of technology or an electronic device owned, leased or used by the school.

Sexual harassment, sexual assault and dating violence are also prohibited at a location, activity, function or program that is not school related or through the use of technology or an electronic device that is not owned, leased or used by the school, if the act or acts in question create a hostile environment at school for the victim, infringe on the rights of the victim at school or materially and substantially disrupt the education process or the orderly operation of a school.

Retaliation against a youth, volunteer or staff member who reports sexual harassment, sexual assault and dating violence, provides information about any such acts, witnesses any such acts, or who testifies, assists, participates or refuses to participate in an investigation, proceeding or hearing is also prohibited.

Administrators will make expectations clear to students and staff that sexual harassment, sexual assault and dating violence will not be tolerated and will be the grounds for disciplinary action up to and including suspension and dismissal for students.

Title IX Coordinator

The individual designated to coordinate the school's response to reports or complaints of sexual harassment, sexual assault and dating violence and for overseeing the school's compliance with Title IX as it relates to students is:

Iesha Caisey, Assistant Principal of Culture and Counseling
202-600-4822

Definitions

Complainant: means an individual who is alleged to be the victim of conduct that could constitute sexual harassment.

Sexual assault is defined differently in local and Federal law. Girls Global Academy will consider both definitions in determining whether sexual assault occurred.

Title IX defines sexual assault as an offense classified as a forcible or nonforcible sex offense under the uniform crime reporting system of the Federal Bureau of Investigation.

District of Columbia law defines sexual assault as any of the following offenses:

- A. First degree sexual abuse (DC Code 22-3002) - engaging in or causing another person to engage in or submit to a sexual act⁵ in the following manner:

Dating violence is defined differently in local and Federal law. Girls Global Academy will consider both definitions in determining whether dating violence occurred.

District of Columbia law defines dating violence as abusive or coercive behavior where a dating partner uses threats of, or actually uses, physical, emotional, economic, technological, or sexual abuse to exert power or control over a current or former dating partner⁹.

Title IX defines dating violence as violence committed by a person—

- (A) who is or has been in a social relationship of a romantic or intimate nature with the victim; and
- (B) where the existence of such a relationship shall be determined based on a consideration of the following factors:
 - (i) The length of the relationship.
 - (ii) The type of relationship.
 - (iii) The frequency of interaction between the persons involved in the relationship.

Retaliation is intimidation, threats, coercion, or discrimination, including charges against an individual for code of conduct violations that do not involve sex discrimination or sexual harassment, but arise out of the same facts or circumstances as a report or complaint of sex discrimination, or a report or formal complaint of sexual harassment, for the purpose of interfering with any right or privilege secured by Title IX.

⁹ "Dating partner" means any person who is involved in a relationship with another person that is primarily characterized by social interaction of a sexual, romantic, or intimate nature, whether casual, serious, or long-term.

Supportive measures means non-disciplinary, non-punitive individualized services offered as appropriate, as reasonably available, and without fee or charge to the complainant or the respondent before or after the filing of a formal complaint or where no formal complaint has been filed. Such measures are designed to restore or preserve equal access to the recipient's education program or activity without unreasonably burdening the other party, including measures designed to protect the safety of all parties or the recipient's educational environment, or deter sexual harassment. Supportive measures may include counseling, extensions of deadlines or other course-related adjustments, modifications of work or class schedules, campus escort services, mutual restrictions on contact between the parties, changes in work or housing locations, leaves of absence, increased security and monitoring of certain areas of the campus, and other similar measures.

Response to Reports

Any individual may report sexual harassment, sexual assault or dating violence – reports do not have to be made by the victim. Such reports can be made in person, by mail, by telephone, or by email, using the contact information listed for the Title IX coordinator or by any other means that result in the Title IX coordinator receiving the report.

All staff members are required to report any sexual harassment, sexual assault, or dating violence they witness or are made aware of. Staff members should immediately record all such incidents in accordance with school procedures and notify the Title IX Coordinator or other administrator on duty.

Any student who believes that they have been the target of sexual harassment, sexual assault or dating violence or who is aware of such acts is strongly encouraged to promptly report the matter orally or in writing to the Title IX Coordinator Iesha Caisey 733 8th St. NW or icaisey@girlsglobalacademy.org or 202-600-4822, an administrator, or to any other faculty or staff member or member with whom the student is comfortable speaking. Also, any student who is subject to retaliation in violation of this policy or who knows of another student who has been subject to retaliation is urged to report it as soon as possible.

Anyone else who witnesses or becomes aware of sexual harassment, sexual assault or dating violence is also strongly urged to promptly notify the Title IX Coordinator.

When a report is made without a formal complaint, the Title IX coordinator will:

- Promptly contact the complainant to discuss the availability of supportive measures;
- Consider the complainant's wishes with respect to supportive measures;
- Inform the complainant of the availability of supportive measures with or without the filing of a formal complaint;
- Explain to the complainant the process for filing a formal complaint.

If the complainant does not wish to proceed with a formal complaint, the complainant's wishes will be respected unless the Title IX Coordinator determines that initiating an investigation over the wishes of the complainant is not clearly unreasonable in light of the known circumstances.

The school will maintain as confidential any supportive measures provided to the complainant or respondent, to the extent that maintaining such confidentiality would not impair the school's ability to provide the supportive measures.

The school may not impose disciplinary sanctions (or other sanctions that are not "supportive measures") against the respondent without conducting a formal investigation. However, the school may remove a respondent on an emergency basis if:

- It undertakes an individualized safety and risk analysis;
- Determines that an immediate threat to the physical health or safety of any student or other individual arising from the allegations of sexual harassment justifies removal; and
- Provides the respondent with notice and an opportunity to challenge the decision immediately following the removal.

A formal complaint may be filed by the complainant, the complainant's parent/legal guardian, or the Title IX coordinator if he/she determines that a formal investigation is needed.

Mandatory Reporting

If the school becomes aware of a report or allegation of sexual assault or sexual abuse, in addition to its own response, the school will also make a referral to CFSA and/or MPD pursuant to mandatory reporting requirements.

Informal Resolution Processes

The Title IX Coordinator may offer and facilitate informal resolution options, such as mediation or restorative justice, so long as both parties give voluntary, informed, written consent to attempt informal resolution. The school will not require participation in informal resolution as a condition of enrollment. The school will not condition informal resolution on the waiver of the right to a formal investigation and adjudication of formal complaints of sexual harassment. The school will not require the parties to participate in an informal resolution process and will not offer an informal resolution process unless a formal complaint is filed. At any time prior to agreeing to a resolution, any party has the right to withdraw from the informal resolution process and resume the investigation process with respect to the formal complaint.

Training

Title IX personnel involved in the informal resolution process and/or reporting and investigation processes will receive training on the following:

- The definition of sexual harassment;
- The scope of the school's education program or activity;
- How to conduct an investigation and grievance process including hearings, appeals, and informal resolution processes that protects the safety of complainants and promotes accountability;
- How to serve impartially, including by avoiding prejudgment of the facts at issue, conflicts of interest, and bias; and
- Issues of relevance, including when questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant.

Investigations of Formal Complaints

The school will promptly investigate any formal complaints received. Respondents will be presumed to be not responsible for the alleged conduct until a determination regarding responsibility is made at the conclusion of the investigation process.

Once an investigation is concluded, further steps will be taken as needed to interrupt or stop each specific act of sexual harassment, sexual assault or dating violence, prevent its recurrence, and address its effects, regardless of whether the incident is the subject of a criminal investigation.

Formal complaints will be investigated by Iesha Caisey, Assistant Principal of Culture and Counseling. Once the investigation is complete, a decision will be rendered based on all of the evidence available. The decision-maker will be Karen Venable-Croft, Executive Director.

Information for Complainants

Within two (2) business days of receipt of a formal complaint, the Title IX Coordinator will provide information to the complainant about:

- The investigation process and informal resolution process including a statement that the respondent is presumed not responsible for the alleged conduct and that a determination regarding responsibility is made at the conclusion of investigation process;
- The allegations including sufficient details known at the time including the identities of the parties involved in the incident, the conduct allegedly constituting sexual harassment, sexual assault and/or dating violence, and the date and location of the alleged incident, if known;
- The complainant's right to have an advisor of his/her choice who may be, but is not required to be, an attorney;
- The right to inspect and review evidence;
- The prohibition against knowingly making false statements or knowingly submitting false information during the investigation process; and
- Available services and advocacy organizations, about the investigation process, about their rights under Title IX of the Education Amendments of 1972, the District of Columbia Human Rights Act of 1977, and crime victims' rights.

Information for Respondents

Within two (2) business days of receipt of a formal complaint, the Title IX Coordinator will provide information to the respondent about:

- The investigation process and informal resolution process including a statement that the respondent is presumed not responsible for the alleged conduct and that a determination regarding responsibility is made at the conclusion of investigation process;
- The allegations including sufficient details known at the time including the identities of the parties involved in the incident, the conduct allegedly constituting sexual harassment, sexual assault and/or dating violence, and the date and location of the alleged incident, if known;
- The respondent's right to have an advisor of his/her choice who may be, but is not required to be, an attorney;
- The right to inspect and review evidence; and

- The prohibition against knowingly making false statements or knowingly submitting false information during the investigation process.

Investigation

Complaints of sexual harassment, sexual assault or dating violence will be investigated in an adequate, reliable and impartial manner. The school will make every effort to complete the investigation within thirty (30) days of receipt of a formal complaint. Extensions of this timeline will be permitted for good cause. If such an extension is exercised, the investigator will notify each party in writing of the reason for the extension. At the conclusion of the investigation period, the investigator will prepare an investigative report to share with the parties and decision-maker as outlined below.

The school will make every effort to protect confidentiality during the course of the investigation. The individual responsible for conducting the investigation will be responsible for making determinations about confidentiality.

Each investigation will include an objective evaluation of all relevant evidence, including both inculpatory and exculpatory evidence. Credibility determinations will not be based on a person's status as a complainant, respondent, or witness. The school will bear the burden of gathering evidence to reach a determination regarding responsibility for the alleged conduct. This investigation will include, as necessary, interviewing witnesses, obtaining documents, and allowing the complainant and respondent to present any inculpatory and exculpatory evidence including witnesses.

The complainant and respondent will have the same opportunity to have others share information on their behalf during any investigative proceeding and to be supported during any proceeding by an advisor of their choice who may be, but is not required to be, an attorney. The parties will be provided written notice if they are invited to participate in any investigative proceeding in person. The notice will include the date, time, location, participants, and purpose of any such proceeding, with sufficient time for the party to prepare to participate.

Each party will have the same opportunity to inspect and review any evidence obtained as part of the investigation that is directly related to the allegations raised so that each party can meaningfully respond to the evidence prior to conclusion of the investigation. The evidence will be sent to each party in electronic format or hard copy at least 10 days prior to the completion of an investigative report so that the parties have an opportunity to submit a written response.

Upon its completion, the investigator will send to each party and the decision-maker an investigative report that fairly summarizes relevant evidence. The parties will be given at least ten (10) days to respond to the investigative report as outlined below.

Decision Making

At least ten (10) days prior to a decision being rendered, each party will have an opportunity to submit a written response to the investigative report which may include written, relevant questions that a party wants asked of any other party or witness. The decision maker will gather responses to those questions and provide those responses in writing to each party. The parties will have three (3) additional days to submit additional, limited follow-up questions. The decision-maker will make determinations about what questions are relevant. Questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant, unless such questions and evidence about the complainant's prior sexual behavior are offered to prove that someone other than the respondent committed the conduct alleged by the complainant, or if the questions and evidence concern specific incidents of the complainant's prior sexual behavior with respect to the respondent and are offered to prove consent.

The decision-maker will review all evidence gathered through the investigative report and responses from each party and will make a determination as to responsibility for the alleged conduct. The decision-maker will use a clear and convincing standard (i.e., clear and convincing evidence establishes that the allegation is substantially more likely than not true) to determine responsibility. Once a determination is made, a written decision will be issued to both parties and will include the following:

- Summary of the allegations;
- Summary of the course and outcome of the investigation including any notifications to the parties, interviews with parties and witnesses, and other methods used to gather evidence;
- Findings of fact supporting the determination;
- Conclusions regarding the application of the policy and code of conduct to the facts;
- A statement of, and rationale for, the result as to each allegation, including a determination regarding responsibility, any disciplinary sanctions to be imposed on the respondent, and what other supportive measures will be made available to the complainant;
- Information about the procedures for appeal.

The decision-maker may notify appropriate law enforcement agencies if school staff determine that the behavior cannot be safely and appropriately handled through school-based disciplinary action. Law enforcement agencies will be notified if mandatory reporting requirements are triggered.

Appeals

Any party who is not satisfied with the outcome of the investigation may appeal in writing to the GGA Board Chair. Appeals must be made within 30 days of the conclusion of the initial investigation. When an appeal is made, both parties will be notified of the appeal and will be given an opportunity to respond. The decision-maker for the appeal will not be the same decision-maker that reached the determination regarding responsibility, the investigator or the Title IX Coordinator.

The secondary investigation shall be completed within 30 days of receipt of an appeal, unless: (1) circumstances require additional time to complete a thorough investigation; (2) the higher-level authority sets forth those circumstances in writing; (3) the additional time is not to exceed 15 days. Upon completion of the appeal, the complainant and respondent will be notified in writing of the outcome of the appeal and the rationale for the result, any change to the result of the initial investigation and when such results become final.

Possible Responses When it is Determined that Sexual Harassment, Sexual Assault or Dating Violence Occurred:

Counseling and Interventions for Respondents

Girls Global Academy will work with its wellness and mental health providers to identify appropriate counseling and intervention strategies for students alleged to have committed acts of sexual harassment, sexual assault or dating violence, and to determine whether it is a referral to the Child and Family Services Agency is required where the accused's behavior indicates that he or she may be the victim of child sexual abuse or child abuse.

Part X: FERPA

All Girls Global Academy employees are required to protect the records containing information pertaining to students. The Family Educational Rights and Privacy Act (FERPA) is a federal law that affords parents and students over 18 years of age (“eligible students”) certain rights with respect to the student’s education records.

These rights include:

- ***The right to inspect and review the student’s education records within 45 days of the day the school receives a request for access.*** Parents, legal guardians, or eligible students should submit to the Girls Global Academy Enrollment and Records Office a written request that identifies the record(s) they wish to inspect. The school leader, Principal, will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.

- ***The right to request the amendment of the student's education records that the parent or eligible student believes is inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA.*** Parent(s), legal guardians, or eligible students who wish to ask Girls Global Academy to amend a record should write to the Enrollment Office and Records and the school leader, Principal, clearly identify the part of the record they want changed and specify why it should be changed. If the school leader decides not to amend the record as requested by the parent or eligible student, the school will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.
- ***The right to privacy of personally identifiable information (PII) in the student's education records, except to the extent that FERPA authorizes disclosure without consent.***

One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the school as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the school's school board; a person or company with whom the school has outsourced services or functions it would otherwise use its own employees to perform (such as an attorney, auditor, medical consultant, or therapist); a parent or student serving on an official committee, such as a disciplinary or grievance committee; or a parent, student, or other volunteer assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. Upon request, the school discloses education records without consent to officials of another school district in which a student seeks or intends to enroll, or is already enrolled if the disclosure is for purposes of the student's enrollment or transfer.

- ***The right to opt out of school designated directory information.*** Generally education records can not be disclosed without consent from the parent, legal guardian, or eligible student.
